

KORTEC
Efficient Coating Systems

**EQUIPMENT &
CONSUMABLES**

Kortec offer a carefully selected range of high-quality equipment and consumables to complement our impressive portfolio of primers and topcoats.

Our goal is to provide a complete service to our clients, ensuring you have access to everything you need for a perfect finish.

By offering a wide array of products, we cater to your diverse needs, making it easier for you to achieve the exceptional results you strive for.

Our Mirka abrasives are renowned for their superior surface finishing solutions. Designed to provide a smooth, even surface, these high-quality abrasives ensure that your surface is perfectly prepared before any primer or topcoat is applied. This reduces the risk of imperfections and guarantees a professional result every time. Mirka's products are efficient, cost-effective, and durable, making them an essential addition to your toolkit.

We are also proud to offer Sames-Kremlin spray guns and pumps, known for their innovative and reliable spraying solutions. These products deliver precise and consistent application, which is crucial for achieving an even coat and a high-quality finish. With Sames-Kremlin, you can be confident in the performance and reliability of your spraying equipment, ensuring your projects meet the highest standards.

At Kortec, our commitment to quality is reflected in our careful selection of these consumables. We have chosen Mirka and Kremlin-Sames products because they align perfectly with our dedication to providing top-tier finishing solutions. By integrating these products into our range, we ensure that you have access to the best tools and materials needed to achieve exceptional results with our primers and topcoats. This strategic selection enhances the overall performance and finish of your projects, reinforcing our reputation as a trusted provider of premium coating solutions.

If there are any consumable or finish related products beyond this carefully selected range, please enquire with a member of our team, who will be happy to help and advise.

Mirka Ultimax Ligno Sanding Discs

(150mm)

Tailored for wood, our Ultimax® Ligno discs feature an innovative hourglass pattern and dust channels that deliver a fast, even cut, efficiently removing larger wood particles. The latex backing ensures flexibility and prevents clogging, maintaining peak performance throughout the job.

For use with the DEROS II sander, the correct sanding discs can improve your speed control and precision.

GRIT OPTIONS

180 | 240 | 320 | 400

Mirka Ultimax Ligno Grip Multifit Strips

(81 x 133mm)

Designed for wood, these multifit grip discs feature the same hourglass abrasive pattern and dust channels as the larger discs, providing an even cut and enhanced dust removal. Their flexibility and clog-resistant design ensure continuous cutting performance.

Purposely designed for pairing with the DEOS II for preparation that requires more control and detail.

GRIT OPTIONS

180 | 240 | 320 | 400

Mirka Ultimax Ligno Soft Foam Backed Roll

(115mm x 125mm)

Experience exceptional wood sanding with our Mirka Ultimax® Ligno Soft Foam Backed Roll. Featuring a unique hourglass abrasive pattern, it ensures a fast and even cut with excellent resistance to clogging.

The specially developed latex impregnated paper provides flexibility and edgewear resistance, while advanced dust channels manage wood dust efficiently.

Designed with Mirka's dust-free technology, this roll offers a long service life and reduces heat buildup, ensuring safe and efficient substrate preparation.

GRIT OPTIONS

180 | 220 | 320 | 400

Mirka Double Sided Sanding Sponge

(98mm x 120mm x 13mm)

Achieve perfect surface preparation with the Mirka Double Sided Sanding Sponge. Designed for durability and flexibility, it's ideal for sanding rounded surfaces and tight angles, ensuring a smooth finish every time.

GRIT OPTIONS

180 | 220

Mirka DEROS II 5650 UK 150mm Orbit 5mm

Enhance your sanding efficiency with the Mirka DEROS II 5650, featuring a powerful, long-life brushless motor that offers up to 20% more sanding power.

Its lightweight, low noise, and low vibration design, along with the unique symmetrical build, ensure maximum operator comfort and reduced fatigue during prolonged use.

Ideal for demanding jobs and heavy applications. The Ligno abrasive range has been developed specifically for pairing with the DEOS II.

Mirka DEOS II 353 81 x 133mm Orbit 3mm

The Mirka® DEOS II 353 is the perfect solution for detailed sanding in woodworking and decorative painting. Its compact, low-profile design allows for easy maneuverability in tight spaces, corners, and edges.

Ergonomically designed for low vibrations and noise levels, this sander ensures comfortable, precise, and efficient performance over extended periods, making it indispensable for intricate tasks. The Ligno abrasive range has been developed specifically for pairing with the DEOS II.

Mirka Dust Extractor 1230 M

Maintain a pristine workspace with the Mirka Dust Extractor 1230 M. This professional-grade, M-class dust extractor features a high-performance motor and turbine, providing powerful suction and airflow. The AutoStart function extends motor life and reduces noise, while the flat top design and large wheels enhance maneuverability and storage.

Equipped with an efficient filter cleaning system and an airflow sensor, it ensures consistent performance and optimal dust extraction, making your sanding tasks cleaner and healthier. Accompanying products available: Hose & connector, extractor dust bags & filters.

Application

Kremlin Spray Gun FStart G Compliant HVLP-18-Mva

Experience professional-grade finishes with ease, using our Kremlin FStart G HVLP spray gun. Ideal for a variety of applications, it ensures superior atomisation for fine, low-viscosity materials while minimising overspray, perfect for achieving that perfect high-quality finish.

Kremlin Spray Gun FStart G Compliant LVLP-18-MVA

Our Kremlin FStart G LVLP spray gun combines ease of use with high efficiency, utilising less air but higher pressure to handle thicker coatings with exceptional atomisation. It's your go-to for a smooth, high-quality finish on any project.

Kremlin Spray Gun Fpro GSP CONV-18-Mvb

For the highest standards in finish quality, the Kremlin FPro G gravity spray gun delivers outstanding results for high-viscosity materials. Its ergonomic design ensures comfort and precision, making it a favourite among professionals.

Kremlin 30-C25 Pump with Xcite200 & 7.5m Hose

This compact and efficient pump is ideal for handling a wide range of materials, from low to medium viscosity. Featuring an optimised volume fluid section, it enables fast color changes with minimal material loss, making it perfect for high-efficiency applications.
